

Business Requirement Document (BRD)

- Project: Easy Loan
- Prepared by: Team Easy Loan
- Date: 15-06-2025

Executive Summary

- Easy Loan is a digital platform designed to streamline borrowing and lending in the UK.
- It reduces traditional loan delays and paperwork, offering fast, fair, and data-driven decisions.

Business Objectives

- - Simplify loan application process
- - Real-time credit assessment
- - Empower lenders with decision tools
- - Promote financial inclusion
- - Ensure compliance

Current Challenges

- - Time-consuming loan applications
- - Unclear approval criteria
- - Manual lender assessments
- - Underserved users due to rigid systems

Proposed Solution

- - Instant decisions via automated credit analysis
- - Minimal paperwork and easy onboarding
- - Loan amounts from £500 to £50,000
- - Integration with credit agencies
- - Risk dashboards for lenders

Scope of the Project

- In-Scope:
 - - Registration, KYC
 - - Loan application and approval
 - - Dashboards, Notifications, Support
- Out of Scope:
 - - International lending
 - - Crypto loans
 - - Manual processes

Stakeholders

- - Borrowers: Seek quick loans
- - Lenders: Need reliable tools
- - Credit Agencies: Provide data
- - Regulators: Ensure legal compliance
- - Dev & Support Teams

Functional Requirements

- - Digital registration & ID verification
- - Real-time risk analysis
- - Loan status tracking
- - Lender dashboards
- - Repayment reminders

Non-Functional Requirements

- - Performance: <60s response
- - Security: Encrypted & authenticated
- - Availability: 99.9% uptime
- - Compliance: FCA regulations
- - Scalability

Assumptions

- - Users have internet access
- - Lenders are UK-compliant
- - Phase 1: UK market only

Constraints

- - UK only in Phase 1
- - Budget limits on third-party tools
- - Regulatory approvals may delay launch
